DETAILED ACTION

Information Disclosure Statement

The information disclosure statement filed 12/24/2003 has been considered.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-4 are rejected under 35 U.S.C. 103(a) as being unpatentable over Licht et al (6,428,466) in view of Risch et al (5,540,651). Licht et al teaches a device as claimed but does not teach a heat exchanger. The prior art shows a plurality of hydrotherapy devices including heating means to maintain the therapeutic water at a comfortable level for the user. One example is Risch et al who teaches heat exchanger -44- in fluid communication with reservoir -16-, fan -114- to cool the heat exchanger, control circuit -50- and hand held controller -54- allowing the user to control the temperature of the water. It would have been obvious to one of ordinary skill in the art at the time the invention was made to include a heat exchanger as taught by Risch et al with the device of Licht et al to provide for user control of the water temperature as taught by Risch et al.
